June 6, 2017

John ROUNG,
General Manager
Pollard Highway Products
PO Box 280
Harrow, Ontario NOR 1G0

Dear Mr. ROUNG:

Thank you for your email of June 6, 2017 in which you requested an extension to the previous exemption from the ban on natural or multi-chloride brines.

We accept your certification that "Mastermelt", "Mastermelt 50" and "Mastermelt 70" characteristics and formulations have not changed. An exemption to the ministry's ban on natural or multi-chloride brines for provincial highways is granted.

This exemption shall apply only to the products "Mastermelt", "Mastermelt 50" and "Mastermelt 70", specifically the respective formula or formulation as previously tested and submitted to the Ministry of Transportation. Any modifications or changes to these formulae or formulations or any other blends or mixes of the product must be reviewed and approved by the Ministry of Transportation prior to the product being applied to provincial highways.

Should you require additional information, please contact me at 905-704-2628 or Heather.McClintock@ontario.ca.

Sincerely,

Alain Beaulieu

 Heather McClintock
Head, Maintenance and Operations
